

AT A GLANCE

WWW.EFSREVISION.COM

// Services & Solutions

Solar PV Systems (On-Grid, Off-Grid & Hybrid)

- Large-scale, commercial, industrial and residential
- Rooftop, building-integrated, carport, ground-mount solutions
- Outright purchase / zero-capex solutions

Energy Performance Contracting & Solutions

- Proposals on energy countermeasures for energy savings using audited data
- Savings / performance contract integrating equipment / plant improvements that reduce energy consumption

Energy Audit & Carbon Accounting

- Equipment audit / plant efficiency
- Carbon emissions calculator
- Liaison and reporting assistance with Suruhanjaya Tenaga
- Consultancy on ISO 50001 - Energy Management

Biomass / Biogas & Waste Heat Recovery System

- Design and build biomass boiler / biogas systems
- Boiler improvement such as waste heat recovery systems to optimise efficiency

EV Chargers

- Supply and install of AC/DC chargers

■ *“EFS empowers our clients with expert-driven, expeditious & reliable renewable energy & energy-efficiency solutions. Our human-centric approach tailors services that maximises client savings & support ESG goals.”*

- Darren Tan, Executive Director

■ *“At EFS, we are focused in our pursuit of exceeding client expectations through our core principles: Uncompromising quality in every project, prompt & personable service delivery, & meticulous attention to detail.”*

- Donovan Chia, Chief Commercial Officer
